CSU Drone Center

UAV MAPPING AND MODELING

February 25 & 26, 2023
CSU Main Campus

2-Day UAV Mapping & Orthomosaic Model Building Course!

The CSU Drone Center UAV Mapping & Modeling Course is designed to teach students, researchers and industry professionals how to successfully capture aerial imagery using UAV's and process mission data into 3D orthomosaic models.

$695 for CSU affiliates, $825 for industry & community members.

Class size is limited, register early at dronecenter.colostate.edu.

Mission Planning
Learn how to build flight missions using Pix4D and the DJI Phantom 4 Pro V2

Aircraft Demonstrations
DJI Phantom 4 RTK and WingtraOne Gen II Demo

Image Processing
Process aerial imagery to create 3D orthomosaic models
