PUBLIC SAFETY UAV OPERATIONS

First Responder Drone Strategies – Real Missions for the Real World

The CSU Public Safety UAV Operations seminar is designed to enhance the readiness and capabilities of law enforcement, fire, EMS and search & rescue drone pilots while utilizing the latest technology and aircraft systems.

Curriculum includes engaging classroom instruction, aircraft and hardware demos, hands-on technical exploration and judicial / legal considerations. Materials include study and reference guides, checklists, waiver & warrant templates, policy examples and more!

Flight missions with multi-copter, fixed-wing and FPV drones with RGB and infrared camera payloads in a dynamic environment utilizing our fleet of modern aircraft and sensors. Manage real-world live scenarios including drone deployments for ISR / overwatch, subject search, residential structure fires, scene mapping & modeling, night operations and indoor tactical operations.

POLICE LINE DO NOT CROSS • POLICE LINE DO NOT CROSS • POLICE LINE DO NOT CROSS • POLICE LINE DO NOT CROSS
