Research Acceleration Office (RAO)

RAO provides "Research Development" services to enable and facilitate competitive individual/team research and research enterprise excellence.

Purpose: To attract research awards, create relationships and opportunities, and develop and implement strategies that increase institutional research/scholarship/artistry competitiveness and impact.

Mission: To provide strategic, proactive, catalytic and capacity-building services that empower individual researchers and scholars, research teams, and the OVPR.

Objectives:

- > Identify/create opportunities for CSU research, scholarship, and artistry (federal, state, private, industry)
- > Position CSU for significant/strategic opportunities, through partnership and collaboration development
- > Align researchers/teams with strategic/significant funding and other recognition opportunities
- > Support strategic initiatives, direction, planning and prioritization and strategic marketing of strengths
- > Increase number of competitive proposals submitted to strategic/significant funding opportunities
- > Increase the success and recognition of CSU's overall research/scholarship/artistry enterprise

Research Development

- PRE-pre-award
- Catalyzing people & ideas
- Team building
- Strategic orientation
- Resource & skills development
- Proposal writing and editing

Research Administration

- Pre-award
- Post-award
- Preparing applications
- Submission processes
- Award administration
- Compliance

CSU - Federal Sponsor Required Internal Controls

- Certifications, Representations, and Assurances

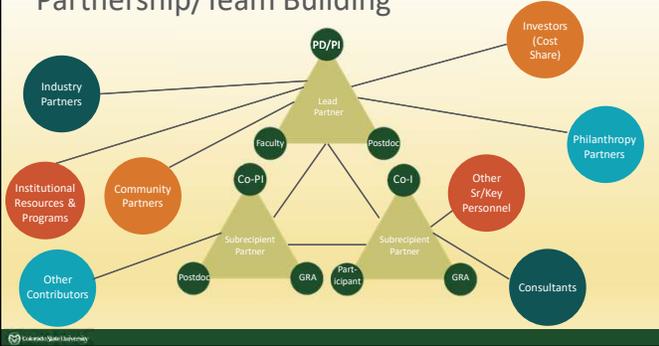

3. **Unaffiliated individuals** — Unaffiliated individuals in the U.S. and unaffiliated U.S. citizens are **not eligible** to receive direct funding support from NSF. Recipients of Federal funds must be able to demonstrate their ability to fully comply with the requirements specified in 2 CFR §200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. As such, unaffiliated individuals are strongly encouraged to affiliate with an organization that is able to meet the requirements specified in 2 CFR §200.

Finding Funding

- Grants.gov (federal funding): <https://www.grants.gov/>
- Institutional search tools:
 - CSU InfoEd Global SPIN database: <https://spin.infoedglobal.com>
 - CSU Foundation Relations RFP list: Link via listserv
 - CSU InfoReady Review Limited Submissions: <https://colostate.infoready4.com/>
- Internal funding opportunities and programs
- Philanthropy News Digest (Foundation Opportunities)
- Sponsor email list subscriptions
- Other universities' websites

19

Assessing Opportunity Fit

The opportunity should fit you and your objectives, not the other way around.

- **Read the RFP closely.**
 - Are you eligible?
 - Is your idea a good fit with the program?
 - Is the opportunity the right "size"? (duration, budget)
- **Understand the mission/objectives/priorities of the funder. How does your proposed work align with the funder's goals? How do these align with your work?**
 - Does this grant program make sense for me and my path?
 - Read the organizational mission statement
 - Understand the focus of the sub-agency/directorate
- **How is my work novel and/or unique? What makes it stand out? What does it add?**
 - What has been funded previously? How might your idea compliment or compete with funded work?
 - Who might be your competition (or collaborator)?
- **Talk to your mentor/advisor and others who have submitted to the opportunity.**
- **Talk to the Program Officer/Program Manager**

20

Talking to Program Officers

| | |
|-------------|--|
| WHO | <ul style="list-style-type: none"> • Program Officers lead and oversee grant programs, ensuring grant alignment with the funder's mission/objectives. |
| WHAT | <ul style="list-style-type: none"> • With a PO, a potential applicant can confirm fit with RFP/Agency/Program, learn about alternative opportunities, clarify guidelines, discover underlying considerations not in the published material, discuss ways to strengthen the project (esp. if resubmission) and build a relationship to grow their network. |
| HOW | <ul style="list-style-type: none"> • Prepare; write email; schedule call; follow up. |

Subject: Request for call to discuss [Program]

Dear Dr. X:

I am interested in submitting a proposal for RFA #XXXX "RFA Title" and would like to schedule a call with you to discuss whether my research is appropriate for this opportunity. *(If your request is urgent, indicate that here and explain why.)*

(Briefly describe your proposed work and why you think it is a good fit.) In case it is helpful, I have attached a *(brief concept paper / specific aims)* for you to review prior to our call.

(If you have specific questions that you want the PO to consider, include them here.)

(Provide possible days/times or indicate that you can be available at the PO's convenience.)

Thank you in advance for your assistance. I look forward to talking with you soon.

Contact info

22

Proposal Writing Tips

- Start Early.
- Writing style depends on the funder.
- Clearly state your hypotheses, questions, objectives, and goals.
- Strong narratives answer core questions clearly and succinctly.
- Describe how your idea is innovative and improves current practices.
- Provide sufficient evidence of preliminary work.
- Situate your proposal within the context of the current field.
- Grant writing is persuasive writing; balance selling and telling.
- Present a logical, unified, and cohesive story with your narrative, figures, experiments, and supporting documents.
- Make sure that your methods are appropriate and clearly explained.
- Follow formatting and proposal guidelines exactly.
- Seek feedback, refine, and edit.

23

Strategic

Learning From Prior Reviews

- **Review process varies by funding type**
 - Usually peer review or foundation staff/board. Peer reviews generally include scored review criteria, panel discussions, and funding decisions made by the program officer.
- **Why proposals fail**
 - Non-compliant; already been done; weak team; scope too small or too large; poorly written; not compelling; politics
- **Using reviews**
 - Remember – it doesn't matter what you intended if the reviewers don't read it that way. Consider the merit of critiques and modify approach/misunderstandings to address flaws. Be attentive to criticisms from multiple reviewers. Resiliency is critical.

24

2 MONTHS – 1 MONTH BEFORE

| | |
|--|---|
| <p>Administrative</p> <ul style="list-style-type: none"> ➢ KRPD Record ➢ Finalize Proposal Narrative & Required Attachments ➢ Finalize Key Personnel Documents ➢ College/Departmental Review ➢ Complete Necessary Registrations in Sponsor Portals | <p>Strategic</p> <ul style="list-style-type: none"> ➢ Gives notice that a proposal is coming ➢ Give yourself or your team enough time to develop ideas ➢ Get to know the required forms and portals ➢ Selection for Limited Submission Opportunities ➢ Do you have everything you need to complete the work? ➢ Writing & Review Cycles ➢ Pink (50-75% complete) & Red (75-95% complete) Proposal Content Review |
|--|---|

25

Read the Notice of Funding Opportunity (NOFO)

- Deadlines and form of submission
 - LOIs, pre-proposals, applications requiring an invite, limited submissions...
- Eligibility and Limitations: PI / Organization
 - InfoReady Review: <https://colostate.infoready4.com/>
- Necessary documents and formatting requirements
- Budget limitations
 - allowable costs, F&A, cost share (mandatory vs. voluntary)

Communicate with your PreAward support early and often!

26

Share details of your proposal

| | |
|--|---|
| <p>What? Tell us about the project</p> <p>Who? Personnel, Collaborators, *Subrecipients vs Vendors*, Consultants</p> <p>How? Equipment fabrication, human/animal subjects, NDAs</p> <p>When? Period of Performance (can impact budget details)</p> <p>Where? Place of Performance; Travel (destination and purpose)</p> <p>Why? Great information for the Budget Justification</p> |    |
|--|---|

Lead time is key!

27

Required Documents

SOW defines roles, responsibilities, and contributions to the project
Budget reflects the cost of activities in the SOW – must meet 4 Cost Principles
Budget justification explains why the costs are necessary to complete the SOW

- Describes roles and responsibilities of each person under Personnel
- Details travel plans - field work, dissemination, collaboration; domestic vs international
- Covers all costs requested including IDC and definition of calculated base

Ancillary documents- dependent on sponsor and solicitation

- Examples include Facilities & Other Resources, Data Management Plan, Mentoring Plan
- Senior Personnel Docs - Biosketch, Current & Pending Support, Collaborator lists, etc.

**Documents may change based on the type of sponsor we're proposing to, e.g. Industry – budget may be different*
