

Classified Research Engagement Request

Per the CSU Academic Faculty & Administrative Professional Manual Section D.7.15, there are restrictions to Colorado State University researchers engaging in classified research. As long as the specified restrictions are met, CSU researchers may engage in classified research following the approval of the associated Department Head, Dean and CSU Vice President for Research.

I have reviewed the restrictions related to engaging in classified research as a CSU employee and attest that the required specifications in D.7.15.2 of the CSU Academic & Faculty Administrative Professional Manual have been met.
