It is important to ensure that your users are aware of your facility status regarding GMP, cGMP, GLP, GCP work or services. If you are not certified in these areas, we recommend that you provide a disclaimer publically on your website as well as part of all project reports. Once data is provided to a user it becomes their responsibility to accurately and appropriately present the information.

Suggested Statement for Core Facility Website and report documents

Our services are conducted under commonly accepted research practices. The [insert your core facility name here] does not perform any services that may be subject to FDA Regulations (e.g. GMP, cGMP, GLP, GCP).
